**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

This action is in response to the amendment filed on 12/27/06.

#### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 3-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohmae 5,941,440 in view of Rinehardt 2,923,938.

Ohmae discloses a driver structure for a stapler comprising a blade edge disposed to be in contact with a staple, first projecting parts 17,19 provided at opposite end portions of the blade edge and disposed to be in contact with a corner formed between the crown and each leg portion of the staple as shown in Fig. 4 for pressing the leg portions, and second projecting parts having a curved shape between the first projecting parts 17,19 and configured to be in contact with the crown, wherein the second projecting parts has a corner portion which engages with the crown as shown in Fig. 4, but does not specifically disclose wherein said first projecting part have guiding surfaces to guide outsides of the leg portions and restrict the broadening of leading ends of the leg portions. Rinehardt teaches the concept of a stapler driver blade having first projecting parts 34 with guiding surfaces in the direction of A to guide outsides of a staple leg portions and restrict the broadening of leading ends of the leg portions. It would have been obvious to one

Art Unit: 3721

having ordinary skill in the art to have provided Ohmae's first projecting parts with guiding surfaces as taught by Rinehardt in order to restrict the broadening of the staple leg portions.

With respect to claim 3, Ohmae discloses a third projecting part provided between the second projecting parts to hold the crown of the staple when the pair of leg portions pass through the bundle of papers.

With respect to claim 4, Ohmae discloses wherein the third projecting part comprises a crown pressing portion to press the crown.

### ***Response to Arguments***

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3721

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
